

Regarding the National Association of Broadcasters (NAB), the organization that represents the large radio and television owners, is using its lobbyists, campaign contributions and political influence to have Congress and the Federal Communications Commission limit XM's ability to provide you with "locally oriented" content, including the new XM Instant Traffic & Weather channels. The only thing you need to understand is that I PAY for the services XM Radio provides. None of the broadcasters fighting to block XM come close to providing the same service. Why on earth would you allow that to be taken from me?
